NATE Technologies

The company has since its inception been a quality provider of Electrical Equipment and Mechanical/Civil services to its customers: NATE Technologies has the capacity to supply and Service a wide variety of electrical equipment to carry out Electrical Installations. The Company has grown from strength to strength and is built on a legacy of excellent experience and commitment.

Our wealth of experience has enabled NATE Technologies to become a market leader and is the perfect choice for customer satisfaction. Our Consulting Engineer comes with more than 20 years' experience from the Copper Mining Industry. NATE Technologies is managed by a highly competent management team. The Company currently has self-motivated and well trained management staff and a varied number of skilled and non-skilled staff

Our Mission

- > NATE Technologies is responsible to customer needs through delivery of high quality product and services. This is made possible by highly motivated employees who share in the responsibility of our success.
- > Our mission is to provide the highest valued services to conform to our customer's requirements and to guarantee our customers continued support in our supplies by providing solutions to their business needs.
- > Create a long term customer relationship with our clients through prospect efficient and professionalism.

Our Vision

NATE Technologies will become a regional provider of engineering products and services. Our success will come through proactively approaching our customers to help them identify their needs. We accomplish this by having a staff that consistently puts the customer first, seek expertise and aggressively pursue profitable work. We will acquire and retain staff by developing an environment that rewards passion, success and integrity

Goals & Objectives

To provide our clients with quality products and meet exact standards at competitive prices, An efficient delivery service ensuring delivery by promised date is ensured.

Client Feedback

All employees are committed to maintaining and improving our Quality Management System to satisfy internal and external customers to comply with regulatory requirements and ensure the financial success of the Company

Customer Philosophy

NATE Technologies The customer makes rules and we follow, though where need be, we do provide free technical advice on how best we can achieve the customer`s desired results. We do not only look at the supply and provide of goods and services, but we also stretch beyond this scope by becoming trading partners to ensure a balanced satisfaction between ourselves and the dearest customer.

Financial Plan

The Company wishes to use the accounting package which is already in place and work it in the financial model, pricing assumptions make budgets and work to control the variance to achieve the accuracy and present them in a true and fair manner.

We also wish to make the project of what will be achieved in the next three years in terms of expected sales and profits.

Resource Requirements

We wish to make our business to be efficient in its operations by moving side by side with our principles in the wake of new technology and maintain our goodwill with our current clients. As the Company grows we will need to increase the capital base.

Safety & Health Policy

It is our policy to provide our Quality products and services in a sustainable manner, while upholding the safety and Health of the workers and Environment. Building long term relationships with our clientele based on honesty, trust and maintaining high standards of professionalism in the dispensation of services.

Health and safety at work is a serious and everyone's concern and as such it is the duty of management and all staff to know and understand their roles and responsibilities, in particular:

- > Know the company safety policy – organisation and arrangements.
- > Employees must pass and possess the Occupational Health checks for positions requiring access to restricted or protected areas as per statutory requirements.
- > Conduct induction training/ Mining safety training programmes.
- > Conduct risk assessments for all projects undertaken.
- > Issue and maintain Personal Protective Equipment [PPE] records for all employees.
- > Conduct regular safety meetings and maintain safety records.
- > Maintain First Aid Equipment.
- > Maintain records of all company equipment.

Environmental Policy

NATE Technologies will actively seek to plan, conduct and monitor operations, using the best practical means, so as to limit adverse effects on the physical environment, whilst ensuring that all relevant laws, regulations and codes of practice are fully complied with.

The duty of care will be achieved by the implementation of the following:

Operational Policy

- > All Environmental Policies will be reviewed, formalised and endorsed by the Company's Board of Directors who take responsibility for its execution and require that it be a prime concern of all employees, sub-contractors and suppliers.
 - > To employ systems and procedures that ensure compliance with relevant environmental legislation.
 - > Endeavour to assess in advance and operate all works with due care for the local and global environment and to the quality of life of the local communities, where such works may take place.
-
-

To give real service you must add something which cannot be bought or measured with money, and that is sincerity and integrity.
